### Healthcare "shopping" through Healthcare Bluebook

Healthcare Bluebook is an online transparency website that allows Members<sup>2</sup> to "shop" for healthcare services and providers. Healthcare Bluebook's website ([www.healthcarebluebook.com/cc/SOF](http://www.healthcarebluebook.com/cc/SOF)) and mobile application display the range of costs of covered in-network healthcare services, as well as, a quality ranking developed by Healthcare Bluebook of inpatient facilities.

Healthcare Bluebook allows Members to review the costs of healthcare services based on a Fair Price™ as determined by Healthcare Bluebook. The Fair Price™ is the amount Members should reasonably expect to pay for a service. Healthcare Bluebook's website and mobile application identify the Fair Price™ of a service and categorize the service as follows:

A healthcare service at or below the Fair Price™ is designated with a green ● symbol;

A healthcare service slightly above the Fair Price™ is designated with a yellow ▲ symbol; and,

A healthcare service with a high price is designated with a red ● symbol.

Some procedures designated with a green ● symbol are available for rewards. Additional information regarding rewards is provided below.

For some facilities, Healthcare Bluebook will conduct its own quality measures and will display a checkmark to indicate the level of quality. A Green Check-Plus ✓+ ranking indicates that a hospital is among the top third of all hospitals in the U.S., a Yellow Check ✓ indicates that the hospital falls in the middle third of all hospitals, and a Red Check-Minus ✓- indicates that the hospital is in the lowest performing third of hospitals in the U.S.

These quality rankings are designed to help Members understand each hospital's level of quality for a particular inpatient clinical area or procedure. Healthcare Bluebook assesses hospital quality for major inpatient clinical categories, such as cardiac surgeries, joint replacement, and neurosurgery. Individual
